Bolters Scarce in Monroe County.

(Glasgow News.)
 A well-known and well posted Republican politician from Monroe County was in Glasgow, and when asked, "How many bolters are there in your county?" said: "There is not a single one over there that I know of. On the other hand, I believe Goebel is gaining recruits from the Republican ranks every day on account of the part the Louisville and Nashville Railroad Company is taking in this fight. If that corporation continues its present attitude toward Goebel throughout the campaign Taylor and the rest of the Republican ticket will be swiped from the face of the earth in November. When I get to Louisville I intend to go around to the Republican headquarters and advise them to shake off the L. and N. people if possible. If they don't Goebel will wipe up the earth with us."

BOLD DECEPTION.

The President's Declarations an Insult to American Intelligence.

(New York World.)

The President, in his speech at Pittsburgh, accused the Filipinos of "attacking the forces who fought for and secured their freedom."

Is a change of "sovereigns" freedom? Would the American Revolutionists have considered that they had secured their freedom in exchanging the tyranny of George III for "benevolent assimilation" by their French allies?

If in his proclamations and other dealings with the Filipinos before the trouble began, or even when his hand-tied Peace Commissioners went out to Manila, the President had promised real freedom to the inhabitants, or had suggested even an autonomous government under our protection, there would have been no more war.

But his initial demand, as far back as December 27th, was for unconditional submission to our "rights of sovereignty" and acquiescence in our purpose of "benevolent assimilation" through the medium of soldiers and carpet baggers, under penalty of death or subjugation. And this is his attitude to the present day.

How can a President of the great republic be blind to the truth that freedom is the same, that liberty is as dear and that self-government is as much a right in the Philippines as in the United States?

Glorious News

Comes from Dr. D. B. Cargile, of Washita, I. T. He writes: "Four bottles of Electric Bitters has cured Mrs. Brewer of acrofula, which had caused her great suffering for years. Terrible sores would break out on her head and face, and the best doctors could give no help; but her cure is complete and her health is excellent." This shows what thousands have proved,—that Electric Bitters is the best blood purifier known. It's the supreme remedy for eczema, tetter, salt rheum, ulcers, boils and running sores. It stimulates liver, kidneys and bowels, expels poisons, helps digestion, builds up the strength. Only 50 cents. Sold by J. J. Wood & Son, druggists. Guaranteed.

Mayor Stalleup reported \$109 as amount collected from licenses and turnpikes.

Permits were granted as follows:

F. H. Traxel Co.; to build an ironclad wagon shed in Patton alley.
 W. R. Archdeacon; to put up a balcony in front of property, corner of Third and Market.

A resolution was unanimously adopted authorizing the Mayor to cancel and surrender the city's stock in the German-town and Lexington turnpike companies, in accordance with the terms previously agreed on in order that the roads could be made free by the county.

The report of the committee to confer with the owners of the Maysville Water Company in regard to the failure of the company to extend mains along Forest avenue, and also as to the bad condition of the water supply was read. The committee's letter to Mr. A. R. Cooper, of Louisville, a member of the company, and also his reply were also read. Mr. Cooper stated that the company's business was under the control of its local officers and he felt certain the extension would be made whenever there were sufficient subscribers for water to yield the proper return on the investment. As to the bad condition of the water at times, he said that this could be remedied only by a system of filtration, and no successful system had yet been discovered.

An ordinance was unanimously adopted exempting the Ohio Valley Pulley Works from city taxation of its manufacturing plant for a period of five years from first of next January.

The committee appointed to investigate the matter reported that the city was not liable for repairs to the sewer coming through the Rains property and jail yard, except where it crosses streets and alleys.

A crossing was ordered put down on north side of Second, at Lexington street.
 Mr. Dieterich made an extended report of his experience with one John W. Quick, with whom he contracted for the sinking of an artesian well on Short street. Under the agreement Mr. Quick was to receive no money until the well was completed and accepted. He was unable to secure the necessary supplies, however, and Mr. Dieterich very magnanimously ordered them from a Chicago firm. The bill for these supplies amounted to nearly \$46. By mistake the check for this was made payable to Quick and mailed to the Chicago firm, who sent it to Quick for his endorsement. The latter quickly cashed the check and skipped out. Mr. Dieterich has had quite a correspondence with Mrs. Quick, but she claims not to know anything of John W.'s wanderings after he left. Mr. Dieterich has procured an order of arrest for the defaulting Quick, and claims to have located his man at a point in Lewis County. He thinks he may be able to "scare" Quick into refunding the cash, and was authorized to prosecute the case to the end. In the meantime Councilman Frost's constituents are clamorous for the well and Mr. Dieterich wanted to go ahead and contract with another party for the work. Council decided he had better wait and see whether Mr. Quick was going to do the work, as Quick's contract didn't name any specified time for doing the work.
 Mr. Blatterman wanted to know what had been done with the request of the ladies as to a conference in regard to the Greenwood fund. The committee stated that they had been ready at any time to meet the ladies but had never received any notice from them.
 Mr. Tolle stated that reports from the police showed that the city lost during the past month seventy-five and a half hours of light by reason of arc lights going out at night. The Superintendent of the gas company, when notified of this, had very promptly agreed to make the proper reduction in his bill.
 Mr. Parker suggested that Wood street be raised and improved just south of the C. and O. track, and it was referred to the Internal Improvement Committee with power to act.
 The Committee on Internal Improvement, on motion of Mr. Eitel, was directed to put a brick gutter along Cherry alley, from Third to Fourth streets, and make other improvements.
 A crossing was ordered put down on south side of Second street, at Main.
 The Internal Improvement Committee was ordered to cut down Short street from the C. and O. viaduct sixty feet south and macadamize it.
 Owners of property on Bridge street, near Second, were ordered to put down a sidewalk.
 The Chief of Police was directed to notify the Board of Education to repair sidewalk on west side of the Fifth ward school building.
 Three bonds each for \$500 were ordered issued and sold to defray current expenses.
 Dr. J. H. Samuel was elected to fill the vacancy in the Second ward, caused by the death of Councilman Geo. H. Heiser, until next general election. The vote stood: Dr. Samuel 6, Wm. G. Heiser 5.
 Mr. Newell was appointed Chairman of the Ways and Means Committee, and Dr. Samuel was assigned to the places on committees held by the late Mr. Heiser.

Strike of Seamen.

London, Sept. 4.—The general strike of seamen and steamer firemen which has been threatened for some time started, the ship owners refusing to accept the committee representing the union for a conference in regard to fixing the rate of wages for firemen and sailors on steamers at six pounds and for sailors on sailing vessels of four pounds monthly, a slight advance in the average wages now paid at the various British ports.
